“When I advise organizations on the competency model and job profile they should look for when they are searching for a chief security officer, I always recommend they seek out individuals with the CISM certification. The CISM certification has become the leading credential for the business of information security. It differentiates itself from traditional information security certifications by focusing on the business and risk management issues associated with information security.”

—*John Pironti, CISM, CISA, CGEIT, Chief Information Risk Strategist, Archer Technologies, USA*

Strong security management is crucial in any enterprise using IT to support its business needs. Today’s IT environment calls for systems that are secured not only from external, malicious attacks, but from unauthorized internal change as well. The Certified Information Security Manager® (CISM®) certification program supports these business needs. The program is developed specifically for experienced information security managers and those who have information security management responsibilities.

With the CISM designation comes many professional and personal benefits including:

- Worldwide recognition for professional experience
- Enhanced knowledge and skills
- Career advancement

GAIN WORLDWIDE RECOGNITION WITH CISM

Recognition for Information Security Management Experience

CISM is unique in the information security credential marketplace because it is designed specifically and exclusively for individuals who have experience managing an information security program. The CISM certification measures an individual's management experience in information security (IS) situations, not the individual's general practitioner skills. A growing number of organizations are requiring or recommending that employees become certified. To help ensure success in the global marketplace, it is vital to select a certification program based on universally accepted information security management practices. CISM delivers such a program. Those who hold this designation join a network of professionals known for their expertise in information security management, IT governance and risk management.

Career Advancement

A current profile of CISM's demonstrates the managerial influence and authority achieved by CISM's within their organizations. The CISM certification promotes international practices and provides executive management with assurance that those earning the designation have the required experience and knowledge to provide effective security management services. The CISM job practice also defines a global job description for the information security manager and a method to measure existing staff or compare prospective new hires.

Enhanced Knowledge and Skills

Earning the CISM designation distinguishes individuals as qualified information security management professional with experience and knowledge managing, designing and overseeing an enterprise's information security. CISM provides the information security professional with an opportunity to build upon existing credentials and provides tangible evidence of career growth. The CISM designation assures employers that their staff have met the current education and experience criteria necessary for successful on-the-job performance. Individuals earning the CISM certification become part of an elite peer network, attaining a one-of-a-kind credential.

CISM Program Accreditation Renewed Under ISO/IEC 17024:2003

The American National Standards Institute (ANSI) has accredited the CISM certification under ISO/IEC 17024:2003, General Requirements for Bodies Operating Certification Systems of Persons. ANSI, a private, nonprofit organization, accredits other organizations to serve as third-party product, system and personnel certifiers. ISO/IEC 17024 specifies the requirements to be followed by organizations certifying individuals against specific requirements. ANSI's accreditation:

- Promotes the unique qualifications and expertise that ISACA® certifications provide
- Protects the integrity of the certifications and provides legal defensibility
- Enhances consumer and public confidence in the certifications and the people who hold them
- Facilitates mobility across borders or industries

The accreditation is both an international and US accreditation: it is based on an international standard but implemented by ANSI to be recognized in the US and by other countries that enter into an arrangement with ANSI. This is in keeping with the purpose of ISO/IEC 17024 to begin standardization of accreditation of personnel certification agencies around the world.

ABOUT THE CISM EXAM

The CISM exam is offered each year and consists of 200 multiple-choice questions that cover the five information security management job practice areas created from the most recent CISM job practice analysis. The percentages below indicate the emphasis of questions that will appear on the exam from each area. The job practice analysis was developed and validated using prominent industry leaders, subject matter experts and industry practitioners.

Job Practice Areas

The areas and their definitions are as follows:

- 1. Information security governance (23 percent)**—Establish and maintain a framework to provide assurance that information security strategies are aligned with the business objectives and consistent with applicable laws and regulations.
- 2. Information risk management (22 percent)**—Identify and manage information security risks to achieve business objectives.
- 3. Information security program development (17 percent)**—Create and maintain a program to implement the information security strategy.
- 4. Information security program management (24 percent)**—Oversee and direct information security activities to execute the information security program.
- 5. Incident management and response (14 percent)**—Plan, develop and manage a capability to detect, respond to and recover from information security incidents.

CISM exam questions are developed and maintained carefully to ensure that they accurately test an individual's proficiency in information security management. For a description of task and knowledge statements for each area, please refer to www.isaca.org/cismjobpractice.

REQUIREMENTS FOR EARNING CISM CERTIFICATION

To earn the CISM designation, an applicant must:

- Achieve a passing score on the CISM exam. A passing score on the CISM exam, without completing the required work experience as outlined below, is only valid for five years. If the applicant does not meet the CISM certification requirements within the five year period, the passing score is voided.
- Submit an application with verified evidence of five years work experience in the field of information security. Work experience must be gained within the 10-year period preceding the application date for certification or within five years from the date of initially passing the exam. Three of the five years of work experience must be gained performing the role of an information security manager. In addition, this work experience must be broad and gained in three of the five job practice areas, as described in the previous section.

Substitutions for work performed in the role of an information security manager are not allowed. However, a maximum of two years of general work experience in the field of information security may be substituted as follows:

- Two years of general work experience may be substituted for currently holding one of the following broad, security-related certifications:
 - CISA in good standing*
 - CISSP in good standing*
 - Postgraduate degree in information security or a related field (e.g., business administration, information systems, information assurance) **OR**
- A maximum of one year of general work experience may be substituted for one of the following:
 - One full year of information systems management experience
 - One full year of general security management experience
 - Currently holding a skill-based or general security certification (e.g., SANS' GIAC, MCSE, CompTIA Security+, Disaster Recovery Institute's CBCP, ESL IT Security Manager)

Exception: Two years as a full-time instructor teaching the management of information security can be substituted for every one year of information security management work experience.

- Agree to abide by ISACA's Code of Professional Ethics which can be viewed at www.isaca.org/ethics.
- Agree to abide by the CISM continuing professional education (CPE) policy, which can be viewed at www.isaca.org/cismcpepolicy.

* For example, an applicant holding either a CISA or CISSP certification will qualify for the maximum two years of experience substitution. However, the applicant also must possess a minimum of three years of information security management work experience in three of the five job practice areas.

It is important to note that many individuals choose to take the CISM exam prior to meeting the experience requirements. This practice is acceptable and encouraged, although the CISM designation will not be awarded until all requirements are met.

REGISTERING FOR THE CISM EXAM

Exam Date

The CISM exam will be administered on **Saturday, 12 June 2010**, unless specified otherwise on page 13 in this brochure.

STEP 1: CONSIDER ISACA MEMBERSHIP

If you are not yet an ISACA member, you should consider joining—when you register for this exam and purchase study aids, you can save money now!

To get a member discount now, you can apply the US \$130 difference between the member rate and the nonmember rate to your ISACA International association dues. Your membership will be activated as soon as your payment is received. Meanwhile, you will be able to enjoy the member discount on your exam study materials. For example, if you buy the *CISM Review Manual 2010* (save \$30) and the CISM Practice Question Database (save \$40), your total savings will be US \$70 as a new member.

Here are the steps to join:

- On the registration form, page 1, item 1: for your Membership#, write “**pending.**”
- On the registration form, page 2, under “Membership,” calculate your total dues by adding the Chapter dues amount and the new member processing fee (\$30 using this form, or \$10 online).
- NOTE: Membership is not required to take the exam, but it will provide you with access to continuing benefits and services throughout the coming year! (Read more about other benefits of ISACA membership on page 15.)

STEP 2: COMPLETE THE EXAM REGISTRATION FORM

Complete both sides of the registration form provided in this brochure (or a clear photocopy) or obtain the registration form from www.isaca.org/cismboi. Print or type clearly in **black ink and block letters**. Be sure to include test center and language preference.

Register Online and Save!

Online registration via the ISACA web site (www.isaca.org/exam) is encouraged. Candidates registering online will save US \$50. Nonmembers can also maximize their savings by joining ISACA at the time they register.

STEP 3: SUBMIT REGISTRATION FEES AND PAYMENT

	<u>ISACA member</u>	<u>Non-ISACA member</u>	NOTE: Registration form and payment must be received on or before 10 February 2010 to qualify for the early registration rate.
Early registrations received on or before 10 February 2010	US \$415	US \$545	
Final registrations received by 7 April 2010	US \$465	US \$595	

Enclose the appropriate payment amount by check (cheque) or draft in US dollars drawn on a US bank or provide credit card information or indicate payment by bank transfer on the registration form. Pricing accurate at the time of printing, subject to change without notice. **DO NOT SEND CASH.**

Only upon full exam payment will an admission ticket be issued and exam entrance permitted. The rates above are based on the registrant's ISACA member status as of the date of registration.

Due Dates

Deadlines are in accordance with the date/time in Chicago, Illinois, USA. **If not registering online, please mail or fax the registration form to ISACA. Do not do both. Submitting duplicate registrations online and/or by hard copy to ISACA may result in multiple registrations and charges.** Final registration forms and payment must be postmarked or received by fax on or before 7 April 2010. **Both sides of the registration form must be received to complete a registration.**

STEP 4: REVIEW ACKNOWLEDGMENT OF REGISTRATION AND RECEIPT OF THE CANDIDATE'S GUIDE TO THE CISM EXAM AND CERTIFICATION

An e-mail acknowledgement of the CISM exam registration, exam test site and exam language will be sent to registrants shortly after the processing of the registration form. Please review the exam registration details carefully and contact the certification department at exam@isaca.org for any corrections or changes. A receipt letter acknowledging CISM exam registration and payment and a copy of the *Candidate's Guide to the CISM Exam and Certification* should be received by exam registrants within four weeks (depending on your worldwide location and local postal delivery) of the processing of the registration form and payment.

OTHER HELPFUL INFORMATION

Exam Registration Changes

Changes to the exam site and test language are subject to the following charges:

- On or before 16 April 2010 No charge
- 17 April through 23 April 2010 US \$50

No exam registration changes will be granted after 23 April 2010.

Refund and Deferrals of Fees

Refund: Candidates unable to take the exam are eligible for a refund of registration fees, less a US \$100 processing fee, if such a request is received in writing on or before 16 April 2010. All requests for a refund after this date will be denied. Exam candidates who have deferred their exam are not eligible for a refund of their deferral fee and associated exam payment.

Deferrals: Exam registrants may elect to defer their registration to the following exam date. A deferral fee is required based on the following schedule:

- On or before 23 April 2010 US \$50
- 24 April through 27 May 2010 US \$100

Deferral requests will not be accepted after 27 May 2010. To request a deferral, please go to www.isaca.org/examdefer. Exam candidates who have deferred their exam are not eligible for a refund of their deferral fee and associated exam payment. Exam candidates who do not appear for the exam (or arrive too late to be admitted) are not eligible for a refund or deferral of their exam registration payment.

No refunds or exchanges will be given for study aids, associated taxes, shipping and handling charges, or membership dues.

Assignment of Test Centers

ISACA will make every effort to assign candidates to the exam center of their choice. However, if an exam center is cancelled, candidates will be assigned to the nearest available exam center. Should a candidate not wish to sit for the exam at the newly assigned exam center, a full refund may be received or the exam fee may be deferred.

Request for Additional Test Centers

If an exam center is not available within 100 miles (160 kilometers) of the location in which a candidate wants to be tested, and if there are five or more candidates who wish to enter as a group at this location, they may request that a new exam center be established. Written requests for establishment of new exam centers, including a minimum of five **paid** registration forms, must be received at ISACA International Headquarters no later than 31 January 2010. While there is no guarantee that a new exam center can be arranged, every attempt will be made to provide one.

Special Arrangements

Upon request, ISACA will make reasonable accommodations in its exam procedures for candidates with documented disabilities or religious requirements. These candidates may request consideration for reasonable alterations in exam format, presentations, food or drink at the exam site, or scheduling. Requests for food or drink at the exam site must be accompanied by a doctor's note; otherwise, **no food or drinks are allowed at any exam site**. Request for consideration must be submitted to ISACA International Headquarters in writing, accompanied by appropriate documentation, no later than 7 April 2010.

PREPARING FOR THE CISM EXAM

Passing the CISM exam can be achieved through an organized plan of study. To assist individuals with the development of a successful study plan, ISACA offers study aids and review courses to exam candidates (see www.isaca.org/cismbooks for more details). Order early: The delivery time can be one to two weeks depending on geographic location and customs clearance practices. For current shipping information, see www.isaca.org/shipping.

- **Candidate's Guide to the CISM Exam and Certification** is supplied to individuals upon receipt of the CISM exam registration form and payment. This guide provides general information regarding the administration of the exam as well as a detailed outline of the job practice areas and task and knowledge statements covered on the exam, and a sample copy of the admission ticket and exam answer sheet.
- **CISM Review Manual 2010** features a new format. Each of the five chapters has been divided into two sections for focused study. Section One contains definitions and objectives, with corresponding tasks and knowledge statements (with references to specific content in Section Two) that are tested on the exam, sample practice questions and explanations of answers, and suggested resources for further study. Section Two consists of reference material and content that supports the knowledge statements and is pertinent for candidates' knowledge and/or understanding when preparing for the exam, and definitions of terms commonly found on the exam. This manual can be used as a stand-alone document for individual study or as a guide or reference for study groups and chapters conducting local review courses. It is a primary reference resource for information security managers seeking global guidance on effective approaches to governance, risk management, program development, management and incident response.
- **CISM Review Questions, Answers & Explanations Manual 2009** and **2010 Supplements** are recommended for use when preparing for the 2010 CISM exam. Each supplement consists of 100 different sample questions, answers and explanations based on the current CISM job practice areas, using a process for item development similar to the process used for developing actual exam items. The questions are intended to provide CISM candidates with an understanding of the type and structure of questions that have typically appeared on past exams, and were prepared specifically for use in studying for the CISM exam. This publication is ideal to use in conjunction with the *CISM Review Manual 2010* and the *CISM Review Questions, Answers & Explanations Manual 2009*.
- **CISM Review Questions, Answers & Explanations Manual 2009** consists of 450 multiple-choice study questions that have previously appeared in the *CISM Review Questions, Answers & Explanations Manual 2008* and the *2008 Supplement*. These questions are not actual exam items, but are intended to provide CISM candidates with an understanding of the type and structure of questions and content that have previously appeared on the exam. Questions are sorted by job practice areas, and a sample 200-question exam is included. This publication is ideal to use in conjunction with the *CISM Review Manual 2010*.
- **CISM Practice Question Database v10** combines the *CISM Review Questions, Answers & Explanations Manual 2009* with the *CISM Review Questions, Answers & Explanations Manual 2009 Supplement* and *2010 Supplement* into one comprehensive 650-question study guide. Sample exams with randomly selected questions can be taken and the results viewed by job practice, allowing for concentrated study one area at a time. Additionally, questions generated during a study session are sorted based upon previous scoring history, allowing CISM candidates to easily and quickly identify their strengths and weaknesses, and focus their study efforts accordingly. Other features provide the ability to select sample exams by specific job practice areas, view questions that were previously answered incorrectly and vary the length of study sessions. The database software is available in CD-ROM format or as a download.

PLEASE NOTE the following system requirements:

- 400 MHz Pentium processor or equivalent (minimum); 1 GHz Pentium processor or equivalent (recommended)
- Supported operating systems: Windows Server 2003, Windows Server 2008, Windows Vista, Windows XP
- 512 MB RAM or higher
- One hard drive with 250 MB of available space (flash/thumb drives not supported)
- Mouse
- CD-ROM drive

The CISM Practice Question Database v10 is licensed for installation on one computer only for personal, noncommercial use.

- CISM review courses are conducted by many ISACA chapters. Exam candidates should contact their local ISACA chapter to find out if a review course is being offered. These courses are often taught by current CISM's who present and discuss exam topics and share their secrets of success. Information pertaining to chapter contacts and course offerings is available at www.isaca.org/chapters and www.isaca.org/cismreview, respectively.

No representation or warranties assuring candidates' passage of the exam are made by ISACA in regard to these or other association publications or courses.

Admission Ticket

Approximately two to three weeks prior to the CISM exam date, candidates will receive a physical admission ticket and an e-ticket from ISACA. The ticket will indicate the date, registration time and location of the exam, a schedule of events for that day, and a list of materials that candidates' must bring with them to take the CISM exam.

Please note: In order to receive an admission ticket, all fees must be paid. In order to receive an e-ticket, all fees must be paid and candidates must have a current e-mail address on file. Only candidates with an admission ticket will be admitted to the exam. If a candidate's e-mail address changes, he/she should update his/her profile on the ISACA website (www.isaca.org) or contact exam@isaca.org.

Candidates must locate and note the specific registration and exam time on their admission ticket. **No candidate will be admitted to the test center once the chief examiner begins reading the oral instructions, approximately 30 minutes before the exam begins.** Any candidate who arrives after the oral instructions have begun will not be allowed to sit for the exam and will forfeit his/her registration fee. A candidate can use his/her admission ticket only at the designated test center on his/her admission ticket.

Candidates will be admitted to the test center only if they have a valid admission ticket and an acceptable form of identification (ID). An acceptable form of ID must be a current and original government issued ID that contains the candidate's name, as it appears on the admission ticket, and the candidate's photograph. The information on the ID cannot be handwritten. All of these characteristics must be demonstrated by a single piece of ID provided. Examples include, but are not limited to, a passport, driver's license, military ID, state ID, green card and national ID. Any candidate who does not provide an acceptable form of ID will not be allowed to sit for the exam and will forfeit his/her registration fee.

Any candidate who has not received his/her admission ticket by 1 June 2010, should contact the ISACA certification department immediately.

No food or drinks are allowed at any exam site, unless special arrangements have been made in advance. Please refer to "Special Arrangements" on page 6.

Misconduct

Candidates who are discovered engaging in any kind of misconduct, such as giving or receiving help; using notes, papers or other aids; attempting to take the exam for someone else; or removing the exam booklet, answer sheet or notes from the testing room will be disqualified and may face legal action. The testing agency will report such irregularities to ISACA's CISM Certification Committee.

Security

Candidates are not allowed to bring any type of communication devices into the test center. Discovery of such devices may result in disqualification and/or the device being confiscated. ISACA will not assume responsibility for stolen, lost or damaged personal property. To review the Personal Belongings Policy, please visit www.isaca.org/cismbelongings.

"The workplace is highly competitive. Employers are more selective than ever. The CISM credential next to my name gives me an edge. It opens doorways that were previously closed."

—Hitoshi Ota, CISM, CISA, IT Systems Risk Manager, Mizuho Corporate Bank, Ltd., Japan

CISM EXAM RESULTS

Receiving Your Score

Please notify the certification department immediately if your registration contact information changes. **Approximately eight weeks after the test date, the official exam results will be mailed to candidates.** Additionally, with the candidate's consent on the registration form, an e-mail message containing the candidate's pass/fail status and score will be sent to the candidate. This e-mail notification will only be sent to the address listed in the candidate's profile at the time of the initial release of the results. To ensure the confidentiality of scores, exam results will not be reported by telephone or fax. To prevent e-mail notification from being sent to spam folders, candidates should add *exam@isaca.org* to their address book, whitelist or safe-senders list.

Reporting of Your Test Results

Candidate scores are reported as a scaled score. A scaled score is a conversion of a candidate's raw score on an exam to a common scale. ISACA uses and reports scores on a common scale from 200 to 800. For example, the scaled score of 800 represents a perfect score with all questions answered correctly; a scaled score of 200 is the lowest score possible and signifies that only a small number of questions were answered correctly. A candidate must receive a score of 450 or higher to pass the exam. A score of 450 represents a minimum consistent standard of knowledge as established by ISACA's CISM Certification Committee. A candidate receiving a passing score may then apply for certification if all other requirements are met.

The CISM exam contains some questions which are included for research and analysis purposes only. These questions are not separately identified and not used to calculate your final score.

Passing the exam does not grant the CISM designation. To become a CISM, each candidate must complete all requirements as listed on page 4.

Retaking the CISM Exam

A candidate receiving a score of less than 450 has not passed and can retake the exam during any future exam administration. To assist with future study, the results letter each candidate receives will include a score analysis by content area. There are no limits to the number of times a candidate can take the exam.

MAINTAINING CISM CERTIFICATION

A major strength of any professional designation is a program of CPE that the individual must follow to retain certification. To maintain CISM certification, individuals must comply with a CPE policy (www.isaca.org/cismcpepolicy) and abide by ISACA's Code of Professional Ethics (www.isaca.org/ethics). Together, these programs help ensure that CISM's remain current with technical and industry advances and demonstrate high professional principles.

The CPE policy requires the individual to earn and submit a minimum of 20 CPE hours and to pay a maintenance fee each year. In addition, a minimum of 120 CPE hours must be earned and submitted during a fixed three-year certification period. To more easily meet the three-year cycle requirement of 120 hours, it is suggested that individuals earn an average of 40 CPE hours annually.

Failure to comply with this policy will result in revocation of an individual's certification.

More than 94 percent of all CISM's remain certified each year. This commendable statistic demonstrates the growing demand for qualified information security managers.

INSTRUCTIONS FOR COMPLETING THE CISM EXAM REGISTRATION FORM

Register online—To register online, please visit the ISACA web site at www.isaca.org/exam.

To avoid any delay or the possibility of the registration being canceled, it is extremely important that the registration form be completed carefully and correctly. **Please print in block letters and black ink.**
